Gillian awaits his fate high in the tower dungeon of a castle. Slated to be a sacrifice to the Evil Skylight, he cannot but think about the day the entity visited him. The visit ran contrary to the Ancients' teachings. The entity brought light and warmth and comfort to the freezing cell. And if Gillian did not know better, the visit was one of mercy. But could it be the freezing cold that is causing Gillian to hallucinate? Well, that depends on how he perceives the difference between light and dark.

The Anacalypsis (a.k.a. An Attempt to Draw Aside the Veil of the Saitic Isis or an Inquiry into the Origin of Languages, Nations and Religions) is a huge treatise written by religious historian Godfrey Higgins. It took him more than twenty years of research to discover that there was once an ancient and universal religion, basically the foundation of all other religions that are known today. His theories about Pandeism are still of enormous interest today.

"Remarkable... Ekirch has emptied night's pockets, and laid the contents out before us." —Arthur Krystal, The New Yorker Bringing light to the shadows of history through a "rich weave of citation and archival evidence" (Publishers Weekly), scholar A. Roger Ekirch illuminates the aspects of life most often overlooked by other historians—those that unfold at night. In this "triumph of social history" (Mail on Sunday), Ekirch's "enthraling anthropology" (Harper's) exposes the nightlife that spawned a distinct culture and a refuge from daily life. Fear of crime, of fire, and of the supernatural, the importance of moonlight, the increased incidence of sickness and death at night, evening gatherings to spin wool and stories, masqued balls, inns, taverns, and brothels; the strategies of thieves, assassins, and conspirators; the protective uses of incantations, meditations, and prayers; the nature of our predecessors' sleep and dreams—Ekirch reveals all these and more in his "monumental study" (The Nation) of sociocultural history, "maintaining throughout an infectious sense of wonder" (Booklist).

In recent years, the scholarly consensus has emerged that early Judaism should no longer be classified as a religion of legalistic works on righteousness, but rather defined primarily by God's covenant with Israel. In this work, it is argued, instead, that there is actually a tension in early Judaism between God as righteous judge and as merciful. As E. Sjöberg maintained in his *Gott und Sünder im palästinischen Judentum*, in the sources used for a reconstruction of early Judaism, there are two mutually exclusive ways in which God is said to relate to human beings. First, God as righteous judge deals with human beings as they deserve. They are assumed to be morally free and responsible, and God judges and recompenses them in history and eschatologically. Not only are the wicked punished for their sins, but the righteous are also rewarded for their obedience. And second, God as merciful does not deal with human beings as they deserve. Rather, he removes the guilt resulting from disobedience to the Law, sometimes on the simple condition of repentance. This means that a person can escape the consequences of disobedience. The understanding of God in the sources vacillates between God as righteous judge and God as merciful, without coming down definitively on one side to the exclusion of the other.
