The Honda Civic Hybrid is a variation of the Honda Civic with a hybrid electric powertrain. Honda introduced the Civic Hybrid in Japan in December 2001 and discontinued it in 2015. In the United States, it was the first hybrid automobile to be certified as an Advanced Technology Partial Zero-Emissions Vehicle from the California Air Resources Board (CARB).

This Honda Civic hatchback has a keen spirit when you let it off the leash. Power and performance you can really feel come from our advanced VTEC Turbo technology. There's an efficient 1.0 litre, or a highly responsive 1.5-litre engine to choose from, with either a sporty 6-speed manual gearbox or smooth-shifting 7-speed CVT transmission.
