Oh-My-God particle - WikipediaSTAR: The STAR Collaboration

One of the ultimate goals of high energy physics is to understand the phase structure of Quantum Chromodynamics (QCD). The STAR ...The Oh-My-God particle (OMG particle) was an ultra-high-energy cosmic ray detected on 15 October 1991 by the Fly's Eye camera in Dugway Proving Ground, Utah, U.S.At that time it was the highest-energy cosmic ray that had ever been observed. Although higher energy cosmic rays have been detected since then, this particle's energy ...
