Principles of Measurement and Transduction of Biomedical Variables The Physiological Effects of Ageing is a comprehensive resource for all nurses working with older people, enabling them to apply their knowledge of the ageing process to their practice, and, in doing so, enhance care delivery. This book emphasizes the normal ageing changes before considering possible effects of ageing on body systems, using as its framework Roper, Logan and Tierney's activities of living. Although problems associated with ageing are identified, nursing assessment and interventions are considered which can help reduce the impact these changes have on a person's functional ability. Special Features: Explores current theories of ageing Makes use of reflective points and points of practice Looks at key topics of maintaining a safe environment and communication Discusses error theory, free radical theory and the immune theory A highly accessible text which encourages holistic patient-centred care

You Are Not a Wise Ape This book provides two thousand multiple choice questions on human anatomy and physiology, separated into 40 categories. The answer to each question is accompanied by an explanation. Each category has an introduction to set the scene for the questions to come. However not all possible information is provided within these Introductions, so an Anatomy and Physiology textbook is an indispensable aid to understanding the answers. The questions have been used in examinations for undergraduate introductory courses and as such reflect the focus of these particular courses and are pitched at the level to challenge students that are beginning their training in anatomy and physiology. The questions and answer combinations are to be used both by teachers, to select questions for their next examinations, and by students, when studying for an upcoming test. Students enrolled in the courses for which these questions were written include nursing, midwifery, paramedic, physiotherapy, occupational therapy, nutrition & dietetics, health sciences and students taking an anatomy and physiology course as an elective.

Concepts of Physical Fitness: Active Lifestyles for Wellness Return to training (RTT) and return to play (RTP) decisions making process in football are currently based on expert's opinion. However, there are no consensus guidelines on evidence-based decision-making. This book provides a framework for evidence-based decision-making both in RTT and RTP following lower-limb muscle injuries sustained in football. Based on the "Italian Consensus Conference (2019) on return-to-play after lower limb muscle injury in football", it provides a list of RTT and RTP criteria after such injuries compiled by orthopedic surgeons, sports physicians, radiologists, rehabilitation physicians, sport physiologists, general surgeons, family physicians, physiotherapists, physical trainers and psychologists working in elite football in Italy. The book identifies the main criteria for RTT and RTP following injuries involving the most important muscle groups, i.e. quadriceps, hamstring, hip adductor, hip external rotator, iliopsoas and soleus-gastrocnemius. As such it is a valuable reference resource for practitioners making RTT and RTP decisions making process.

McGraw-Hill's EMT Flashcards Man has decided to live apart from God. As a result, he has exchanged his identity of a child of the Almighty by a miserable identity of a wise ape. The complex structure of man as a tripartite being composed of body, soul, and spirit, has been simplified by science, which has denied his spiritual components and has reduced him to a body, just like any animal. This book will guide you to discover and recover your true identity. You will be amazed as you realize, through its pages, that you are a privileged creature much more complex than you could ever imagine. It is important for you to recover your true identity because you are a child of the Highest God, and now is the time for you to claim and grab hold of the heritage that belongs to you as such, which includes living with physical, mental, and emotional wellbeing. I urge you to give yourself an opportunity to know a wonderful spiritual world, which you belong to.
