### [Membrane technology enhancement in oil-water separation. A](#)

Then I'd drown it in ranch dressing just to make it edible. (And not the good kind of oil-free dressing we highlight below, but the uber-processed, non-vegan, high-calorie kind.) Maybe I would have been better off without a salad at all — as it turns out, salads don't have to look like that! I know, novel idea.

### [Can oil and water mix?](#)

As well as developing and adopting leading-practice floating LNG (FLNG) and floating production, storage and offloading (FPSO) approaches to developing offshore gas resources as Browse Basin projects come online from 2017, the gas sector is also responding to the global trend toward facilities for deep water and offshore oil and gas developments.
